NOTES

Note No.	
N-1	The exploration data map shows only the most important minerals found at each site. All the minerals noted are listed in the mineral occurrences or the drill hole data. On the maps, only the areas for which work has been submitted to the Ministry are shown and thus a company may hold, or have held in the past, more ground than is shown. No present and past producers. Type of Work, p. 4-1 Harlin Resources Ltd., Opikinimika Lake Project, Consultants Report and Benefication Study, 1986
